

KARAN BASTOLA

Backend Developer • PHP / Laravel / Node.js / AngularJS / Nginx

+91-8860922438 | karanbastola87@gmail.com | [linkedin.com/in/karanbastola](https://www.linkedin.com/in/karanbastola) | Delhi, India

Professional Summary

Detail-oriented Backend Developer with 2+ years of experience building scalable web applications using Laravel, PHP, Node.js, and MySQL. Proficient in RESTful API design, real-time systems, AngularJS frontend integration, and server configuration with Nginx. Proven ability to collaborate across teams, manage production escalations, and deliver client-ready solutions efficiently.

Technical Skills

- Backend:** PHP, Laravel, Node.js, RESTful APIs, Webhooks, Event-Driven Architecture
- Frontend:** HTML5, CSS3, JavaScript, AngularJS, AJAX, Bootstrap
- Database:** MySQL
- Server & DevOps:** Nginx, Git, Version Control
- Architecture:** MVC, Performance Optimization, Debugging, Live Chat Integration
- Soft Skills:** Problem Solving, Team Collaboration, Client Handling, Escalation Management

Professional Experience

Product Developer — Lepide May 2024 – Present | Noida, India

- Maintained and enhanced enterprise-level Laravel applications, improving performance and system reliability.
- Identified, debugged, and resolved critical production bugs, reducing system downtime and improving user experience.
- Designed and developed new modules and features using Laravel, PHP, and MySQL following MVC best practices.
- Collaborated with cross-functional teams to deliver projects on schedule and to defined quality standards.
- Managed client deliveries including requirement gathering, product demos, and post-delivery support.
- Resolved production escalations by troubleshooting live issues and coordinating rapid, timely fixes.

Projects

Laravel Web Application with Real-Time Features 2025

- Built a full-stack Laravel application with secure user authentication, role-based authorization, and session management.
- Implemented real-time notifications and live chat using webhooks and event-driven architecture.
- Developed responsive UI with HTML, CSS, JavaScript, AngularJS, and Bootstrap for cross-device compatibility.
- Applied clean code architecture, robust error handling, and query optimization for production-grade performance.
